

## **REQUEST FOR APPROVAL**

**To:** Howard Levenson  
Deputy Director, Materials Management and Local Assistance

**From:** Cara Morgan  
Branch Chief

**Request Date:** July 16, 2013

**Decision Subject:** Application To Expand The Sacramento Recycling Market Development Zone

**Action By:** August 20, 2013

-----

**Summary of Request:** This item requests approval of an application submitted by the Sacramento Recycling Market Development Zone to expand its current designated boundaries by including one additional jurisdiction(s). The Sacramento Recycling Market Development Zone is currently comprised of eight jurisdictions, including the City of West Sacramento's Enterprise Zone in Yolo County, all of Sacramento County, and the cities of Citrus Heights, Elk Grove, Folsom, Galt, Isleton, and Sacramento. The Administrator for the Sacramento Recycling Market Development Zone submitted an application in March 2013, requesting that the boundaries of the Sacramento Recycling Market Development Zone be expanded to include the City of Rancho Cordova and to remove the City of Isleton. The expansion is sought to increase the diversion of materials from area and regional landfills and to provide technical and financial support to additional businesses that use materials from the waste stream to manufacture their products.

**Recommendation:** Staff finds that all of the requirements have been met and recommends that the Department find that the Project will not have any adverse environmental effects that are subject to mitigation or avoidance under the jurisdiction of the Department, and that the Department approve the Sacramento Recycling Market Development Recycling Market Development Zone's application to expand the existing Zone to include the City of Rancho Cordova.

-----

**Division Chief Action:**

On the basis of the information and analysis in this Request for Approval and the findings set out above, I hereby find that the Project will not have any adverse environmental effects that are subject to mitigation or avoidance under the jurisdiction of the Department and I approve the application to expand the Recycling Market Development Zone to include the City of Rancho Cordova.

Howard Levenson, Deputy Director  
Materials Management and Local Assistance

---

## Background Information, Analysis, and Findings:

The Recycling Market Development Zone program combines recycling with economic development to fuel new businesses, expand existing ones, create jobs, and divert waste from landfills. The program provides attractive loans, technical assistance, and free product marketing through RecycleStore to businesses that use materials from the waste stream to manufacture their products and that are located in a CalRecycle-designated Recycling Market Development Zone. Business assistance is provided through a partnership between local Zone Administrators and CalRecycle. Local government incentives may include special variances in building codes and zoning laws, streamlined local permit processes, reduced taxes and licensing, and consistent secondary material feedstock supply.

Regulations describing the procedures necessary to expand the boundaries of an existing Recycling Market Development Zone are described in the California Code of Regulations Title 14, Division 7, Article 1, Section 17914. The Sacramento Recycling Market Development Zone is currently comprised of eight jurisdictions, including the City of West Sacramento's Enterprise Zone in Yolo County, all of Sacramento County, and the cities of Citrus Heights, Elk Grove, Folsom, Galt, Isleton, and Sacramento. The Administrator for the Sacramento Recycling Market Development Zone submitted an application in March 2013 requesting that the boundaries of the Sacramento Recycling Market Development Zone be expanded to include the City of Rancho Cordova and to remove the City of Isleton.

The Sacramento Recycling Market Development Zone has adequately addressed all requirements by submitting the information noted below:

<b>Sacramento Recycling Market Development Zone Expansion</b>	<b>YES</b>	<b>NO</b>	<b>N/A</b>
Updated Market Development Plan for the new jurisdictions joining the Zone, if applicable	X		
CEQA documentation provided	X		
A map indicating the new Zone boundaries	X		
Letters of commitment and support, if applicable			X
Resolutions showing local adoption by county and/or cities	X		

Under the California Environmental Quality Act (CEQA), the Department (i.e., CalRecycle) is a Responsible Agency with respect to the expansion of the Zone (the Project). The Sacramento Recycling Market Development Zone served as Lead Agency and prepared and adopted a Notice of Exemption, on June 18, 2013, in connection with its approval of the Project. The Department has independently considered the potential environmental effects of the Project and determined that the Project will not have any adverse environmental effects that are subject to mitigation or avoidance under the jurisdiction of the Department. The Department has further determined that, under the particular circumstances considered by the Lead Agency for this Zone, a Notice of Exemption will also be adequate for the Department's purpose. Therefore, Staff recommends that the Department find that the Project will not have any adverse environmental effects that are subject to mitigation or avoidance under the jurisdiction of the Department.

The administrative record for the staff's recommendation to approve the Project includes the administrative record before the Lead Agency, the proposed Project together with all of its components and supporting documentation, this staff report, the Environmental Document adopted by the Lead Agency, and all other documents and materials utilized by the Department in reaching its decision to approve the proposed Project. The custodian of the Department's administrative record is Dona Sturgess, Legal Office, Department of Resources Recycling and Recovery, P.O. Box 4025, Sacramento, CA 95812-4025.

The Department will file a Notice of Exemption with the State Clearinghouse following Department approval of the Project.
